Welcome to PRJMA members from our neighboring states!

The Public Risk Management Association (PRIMA) is now in its 4th decade as the premier provider of risk management leadership and professional development specifically focused upon the public sector and its organizational leaders.

AZ PRIMA's network of public sector risk managers and their industry partners have been mutually engaging, supporting, and developing the profession, each other, and those new to public risk management in Arizona since 1990, ensuring the strongest support possible for our public entities, their constituents, and stakeholders. Risk management is focused upon creating and protecting value and supporting strong accomplishment of strategic objectives. The Chapter provides quarterly educational and professional development programs and a broad support network.

SES

AZ PRIMA's **Summer Education Series** brings regional and national practitioners and thought leaders together annually to foster education, creativity, program enhancement, engagement, supportive relationships, and excitement, priming each other to more creatively and effectively lead our organizations' efforts to manage risk and achieve their objectives.

Summer Education Series

Arizona PRIMA

July 29 - July 31, 2026

Welcome to SES 2026!

It has finally arrived, and great sessions, networking, and food are here.

Please thank our sponsors who make this event and our various scholarships possible.

Spend some time getting to know a few people better. We are each other's greatest support system. Recharge and refresh for the next year!

Shannon Murphy, Chapter President

Little America Flagstaff
